THE HOMEBODY'S GUIDE TO STOCKHOLM

A CURATED COLLECTION OF QUIET CORNERS & FAVORITE READS

SLOW LIVING GUIDE

Welcome. I'm so glad you're here.

For years, my life was defined by the whistle of a referee and the high-intensity rhythm of elite football. It was a world of performance, metrics, and constant movement. Today, as a Growth Marketer, I still live in a world of data and strategy, but my heart has found a different pace.

Living on Kungsholmen has taught me the art of the 'slow-down.' I've traded the stadium lights for the soft glow of a reading lamp, and the adrenaline of the pitch for the quiet satisfaction of a perfectly brewed morning coffee. This guide is a gift from my homebody heart to yours—a collection of the places and pages that bring me peace in our beautiful, bustling city.

The Morning Ritual

Petit France

Tucked away on John Ericssonsgatan, this is where my weekends begin. The smell of fresh sourdough and the soft clink of porcelain create a sanctuary. It's the perfect spot to disappear into a book before the rest of the city wakes up.

" Perfect for a slow, solitary breakfast where nobody rushes you. "

The reflexive walk

Norr Mälarstrand

My favorite stretch of Stockholm. Walking along the water, with the Riddarfjärden on one side and the weeping willows on the other, is my version of meditation. It's where I process my thoughts and find clarity.

" The wide paths and water views provide a sense of space that every introvert craves. "

The Temple of sillence

Stadsbiblioteket

Asplund's rotunda is more than just architecture; it's an experience. Standing in the center of that circular hall, surrounded by thousands of stories, I feel a profound sense of belonging. It is the ultimate 'quiet corner'.

" The natural acoustics demand a whisper, making it a haven from the noise of modern life. "

Three Reads for Different Moods

Growth & Mindset

Atomic Habits

by James Clear

As someone who transitioned from sports to marketing, I'm obsessed with systems. This book is the blueprint for building a life that feels intentional rather than accidental.

Why I chose it: It turns the daunting task of 'growth' into small, manageable, and cozy rituals.

Pure Escapism

The Night Circus

by Erin Morgenstern

A circus that arrives without warning and only opens at night. The prose is so atmospheric you can almost smell the caramel and woodsmoke.

Why I chose it: It's the ultimate 'rainy day' read—a world so vivid you'll forget you're sitting on your sofa in Stockholm.

The Classic

The Picture of Dorian Gray

by Oscar Wilde

Wilde's wit is unmatched, but it's the exploration of beauty and the soul that keeps me coming back. It's haunting, sophisticated, and timeless.

Why I chose it: Every homebody needs a classic that challenges the mind while they sip their tea.

Until Next Time

I hope this guide helps you find your own quiet rhythm in Stockholm. Remember that the most productive thing you can do is sometimes exactly nothing at all.

Warmly, Maja Augustsson
